Binocular Breathe

This system lets you combine your gear in a whole new way. Think of it as the new tool kit of the camera strap world. This utility-player comes in three parts, a super low profile breathable ariaprene neck strap made from environmentally conscious materials, and two adjustable nylon seatbelt webbing straps. Hook it up to the Double strap or compatible backpack to allow a dual camera + binocular, third camera, or tablet set up.

- Breathable ariaprene neck strap
- Gatekeeper attachments
- Smooth Seat Belt webbing
- Works well with binoculars, compatible waterproof tablet or phone cases
- Neck strap length: 40.75cm (16")
- Strap attachments length: 30cm (11.8")
- Width of neck strap: 5cm (2")
- Weight: 38g (1.34oz)

BR362002

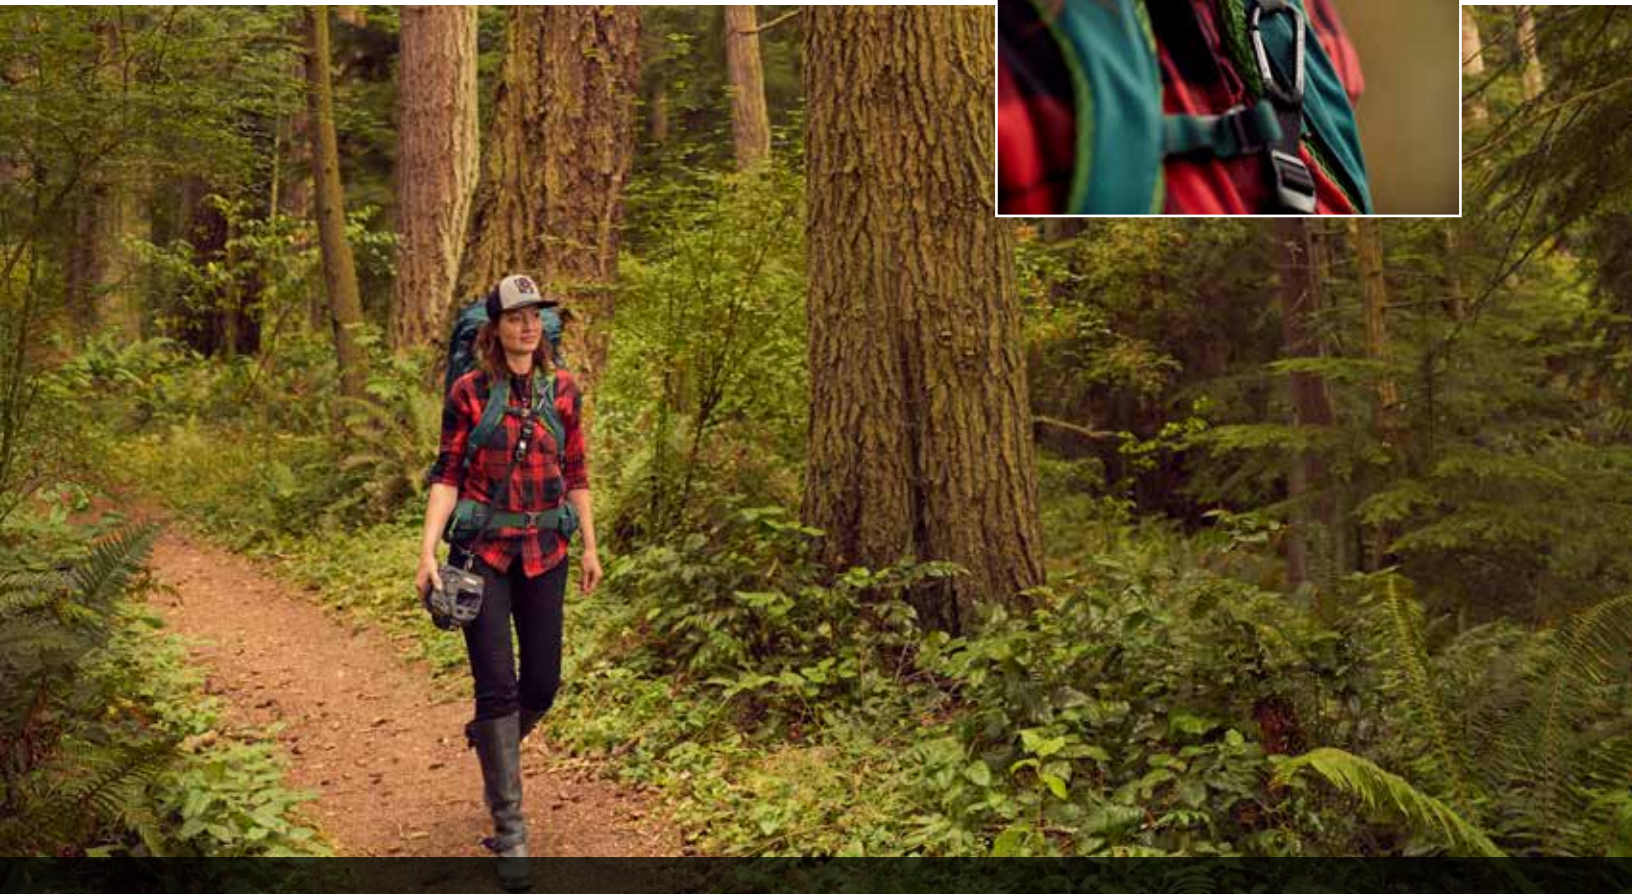

Backpack

This first-of-it's-kind design will turn your world upside down. The strap can be installed onto any compatible backpack eliminating any of the discomfort of carrying a camera and a backpack at the same time. It features new easily attachable carabiners that clip into d-rings or webbing loops on the backpack. The strap has all the BlackRapid sling system features.

- Aluminum carabiners for clipping onto a backpack
- Front and back spring-loaded camera locks
- Adjustable length by pulling the d-ring in front
- New CR-3 Carabiner clip for camera attachment
- Nylon stuff sack for strap storage or your personal items
- Length: 80cm (31.5")
- Weight: 128g (4.5oz)

BR362001

Sport Breathe

Be comfortable, whether you're hiking the Himalayas or running up and down the sidelines. This strap is built for adventure and for right-handed photographers. The aggressive pad shape has a wider back that distributes the weight comfortably and cups the shoulder. Designed with lighter weight, breathable materials, you can keep doing what you do without worrying about your strap.

- Moisture wicking air mesh with perforated foam core
- Hypalon flat pouch mount Duraflex buckle
- Front and back spring-loaded camera locks
- Underarm strap to prevent slippage
- Length: 167cm (65.75")
- Weight: 190g (6.7oz)

BR361005

Sport Left Breathe

Finally, a strap designed specifically for the left-handed professional photographer. It's perfect for capturing extreme sports - from surf to snow to chasing your kids through the park. Updated high performance materials make the design a lighter weight breathable strap with an aggressive pad shape that distributes weight comfortably while cupping your shoulder. This is where sleek, professional style meets high-performance function.

- Moisture wicking air mesh with perforated foam core
- Hypalon flat pouch mount Duraflex buckle
- Front and back spring-loaded camera locks
- Underarm strap to prevent slippage
- Length: 167cm (65.75")
- Weight: 190g (6.7oz)

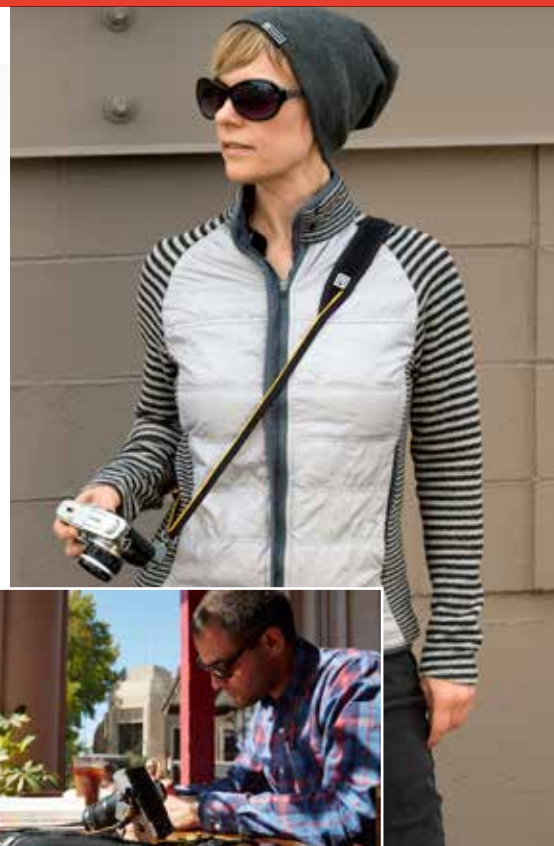

BR361006

Street Breathe

Designed specifically to be ultra-light and packable, perfect for travel and street photography or use with tablets. The shoulder pad is a super low profile breathable ariaprene made from environmentally conscious materials. This stylish strap has a seamless pad to webbing integration and accent color binding while featuring all the components of our pro series plus Duraflex buckles and our standard connection hardware.

- Ariaprene breathable pad
- Hypalon flat pouch mount Duraflex buckle
- Nylon stuff sack for strap storage or your personal items
- Length: 155cm (61")
- Weight: 96g (3.38 oz)

BR361008

Curve Breathe

We combined everything you love about our camera straps and transformed them into one classic design. This highly functional strap adapts to all sizes of gear, body types, and activities. The moderately curved pad shape evenly distributes the weight for maximum comfort. Through updated high performance materials we designed a lighter weight breathable strap that increases functionality and comfort for users while maintaining a sleek professional style.

- Moisture wicking air mesh with perforated foam core
- Hypalon flat pouch mount Duraflex buckle
- Front and back spring-loaded camera locks
- Underarm strap to prevent slippage
- Length: 167cm (65.75")
- Weight: 181g (6.4oz)

BR361007

Cross Shot

The only rubber-molded pad on the market that grips to the shoulder keeping it in place at all times. No slips - no worries. The design keeps it simple and compact but robust enough for heavy loads. Includes all features of our pro series including anti-brake Duraflex buckles, and standard connection hardware. This is our only ambidextrous strap and can be worn diagonally across the torso from either shoulder to the hip.

- Rubber over molded pad
- Front and back spring-loaded camera locks
- Lockstar carabiner cover
- Nylon stuff sack for strap storage or your personal items
- Length: 180cm (31.5")
- Weight: 128g (4.5oz)

Hand Breathe

When you see life through your lens, you want your camera secure yet handy. Inspired by photographers looking for function, comfort, AND options - this strap is the trifecta. It can be used as a hand strap with the safety wrist strap or you can stash that strap in the pad and install the second pad for extra wrist support. This hand strap can also be used in conjunction with our shoulder slings. The pads are soft to the touch and made of an elegant lightweight breathable material.

- Ariaprene breathable inner pad
- Color-coded hooks
- Removable wrist support pad
- Nylon stuff sack for strap storage or your personal items
- Hand strap pad is 13.3cm (5.25") L x 6.6cm (2.6") W
- Weight: 56g (1.97 oz)

BR362003

Wrist

Short of walking around with a safety net, this is the next best thing. Attach the strap to your camera and it's like built-in insurance. Even if your fingers slip, you'll have a soft, nylon-webbing strap attached to your wrist. Available with and without the FR-5.

- Lockstar ConnectR™ cover to secure carabiner
- Soft nylon webbing
- Swivel locking carabiner
- Nylon stuff sack for strap storage or your personal items
- Length: 22.5cm (8.85")
- Weight: Wrist: 45g (1.58oz)
Wrist with FR-5: 60g (2.11oz)

Hybrid Breathe

One of a kind and functionally unparalleled in its class this hybrid single/double strap will perform in all environments, with all sizes of gear, all day. As a double strap, you can wear two cameras of different weights. Convert it to a single strap and you've got our widest shoulder pad. The shoulder pads unique shape and strap orientation adds stability and comfort. Through updated high performance materials the design is a lighter weight breathable strap that increases functionality and comfort while maintaining a sleek professional style. Think beefy. Think comfortable. Think about all you can accomplish with a Hybrid.

- Moisture wicking air mesh with perforated foam core
- Hypalon flat pouch mount Duraflex buckle
- Front and back spring-loaded camera locks
- Underarm strap to prevent slippage
- Length: 160cm (63")
- Weight: 323g (11.39oz)

BR361009

Double Breathe

The most versatile dual camera harness for professional photographers in the world. Wear it like a backpack and attach two cameras. You'll always have what you need within reach. Through updated high performance materials the design is a lighter weight breathable strap that increases comfort and functionality while maintaining a sleek professional style. It's perfect for event, sport and wedding photographers - or anyone who likes having two choices. And who doesn't like options?

- Moisture wicking air mesh with perforated foam core
- Hypalon flat pouch mount Duraflex buckle
- Front and back spring-loaded camera locks
- CoupleR to pull together straps and minimize swinging
- Length: 160cm (63")
- Weight: 353g (12.45oz)

BR361003

Double Slim Breathe

The outstanding versatility and professional functionality of the double, just slimmer. Designed specifically for women and smaller framed men, this strap has slimmer shoulder pads and shorter straps. Through updated high performance materials the design is a lighter weight breathable strap that will get you comfortably from pre-game or the wedding march all the way to tail lights.

- Moisture wicking air mesh with perforated foam core
- Hypalon flat pouch mount Duraflex buckle
- Front and back spring-loaded camera locks
- CoupleR to pull together straps and minimize swinging
- Length: 152.5cm (60")
- Weight: 322g (11.35oz)

BR361004

Tether Kit

A five-piece kit to give your BlackRapid strap extra security. It includes two nylon safety tethers with triangle d-rings for your eyelets on one end and a webbing loop to attach to your ConnectR™. You can also clip one of the two carabiners that come in the kit to the safety tether and the webbing on your camera strap. The carabiners can also be used to clip the nylon bag to your gear or belt. All of the useful parts in this kit provide photographers multiple connections from the camera to the strap.

BR362008

- 2 Carabiners
- 2 Nylon webbing
- 2 Triangle key rings
- Poly and mesh drawstring stuff sack
- Weight: 46g (1.62oz)

Lockstar

The Lock Star clips onto the strap's ConnectR hook (CR-2), and serves the dual purpose of preventing the ConnectR lock from coming unlocked during use, and also preventing the metal hardware from coming into direct contact with the camera body. Package of Two.

BR362007

- ABS Plastic
- Package of two
- Prevents ConnectR from direct contact with camera
- Weight: 19g (0.67oz)

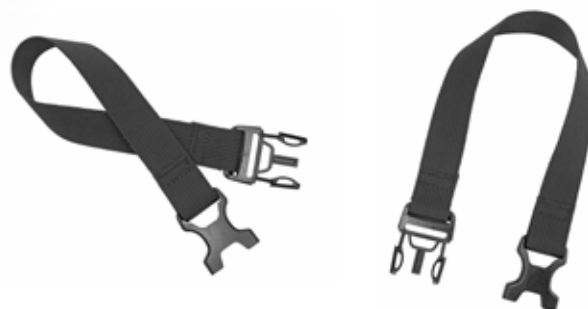

Bert

Need a little extra length? The Bert Strap offers an extra 30.48cm (12") of length to help with fitting the extra tall or bigger built customers. Easily added by unclipped the webbing strap at the back of the pad, mount the Bert in its place, and attach the other end to the webbing. Then use the strap as normal.

BR362005

- Detachable length extender accessory for Black Rapid camera strap
- 100% nylon webbing with buckle
- Length: 30.48cm (12")
- Weight: 2g (.07oz)

FastenR Tripod

Made exclusively to give a weight tested alternative attachment between the Manfrotto RC-200PL-14 plate and BlackRapid straps. The FastenR Tripod replaces the existing fastener provided by Manfrotto and makes your plate R-Strap ready. Think of the convenience of never having to disconnect when you want to go from your R-Strap to your tripod, and back again.

BR362002

- Stainless Steel
- Screw diameter: standard 1/4" x 20 thread (fits all cameras)
- Comes with stainless steel "C" ring, and washer for easy attachment
- Length: 1.4cm (0.5")
- Weight: 18g (0.62oz)

FastenR FR-5

Redesigned! The new FR-5 FastenR is now produced as a over-molded stainless steel design with a larger attachment hole making it easier to connect the new ConnectR. New nylon coating for extra durability. Provided rubber washer gives extra security, making it virtually impossible to over-tighten your FastenR to your camera. This piece fits on all BlackRapid R-Straps.

BR363001

- Stainless steel
- Rubber washer included
- Screw diameter: standard 1/4" x 20 thread (fits all cameras)
- Nylon coated for extra durability
- Length: 2.2 cm (0.86")
- Weight: 16g (0.56 oz)

Brad

Easily attachable to all BlackRapid straps the Brad affords underarm stabilization and keeps the strap from rotating. For people who hike, bike, rock climb, or any outdoor activity where they carry their camera, the Brad gives extra security that your camera will stay where you lock it in place. Designed to be quickly attachable when needed.

BR362006

- Detachable underarm stabilizer accessory for camera strap
- 100% nylon webbing with aluminum hook
- Easily detachable
- Length: 180cm (31.5")
- Weight: 27g (0.95oz)

CoupleR

Want to make a double strap? It's easy as taking two straps, attaching the CoupleR to both the front and the back to quickly make you own double harness. The CoupleR also comes with the Double and Double Slim straps and serves as a way to stabilize the two cameras worn by creating tension from the back. It also keeps the two camera from moving to the front while working.

BR362004

- CoupleR to connect 2 camera straps into a harness
- Elastic, webbing, and snap- closures
- Length: Open: 27.95cm (11") Closed: 15.24cm (6")
- Weight: 40g (1.4oz)

Tripod Plate 50

BR2503001

Tripod Plate 70

BR2503002

Tripod Plate 50/70

This product allows you to quickly switch from your tripod to any of your BlackRapid straps effortlessly, without having to unscrew the plate. Replace your existing Arca compatible plate with the Tripod Plate 50 or 70. Comes with our FastenR™ Tripod screw and fits all 1/4"-20 sockets.

- Coated aluminum alloy plate
- Stainless steel FastenR™ Tripod screw
- Removable bushing allen screws on plate
- Length of plate 50mm / 70mm
- Width of plate 40mm
- Fits all 1/4"-20 sockets
- Weight: 46g (1.62 oz)
