FOLDIO360
360 IMAGES AT
YOUR FINGERTIPS

Foldio360 is designed for everyone. All you need is a light box, your smartphone or DSLR camera and the Foldio360 to create beautiful 360° images.

SMART TURNTABLE

Foldio360 is a smart turntable that allows you to create 360° images with ease using a smartphone or DSLR camera.

AUTOMATIC SHOOTING SYSTEM

The Foldio360 uses Bluetooth and IR sensors to connect directly with your smartphone and DSLR camera. Once you click the start button, it will automatically rotate, take photos and combine them to create one final 360° image.

HALO EDGE™ LIGHT SYSTEM

Foldio360 has a unique feature called Halo Edge light system to further enhance the quality of your 360° images. This helps eliminate any boundary line to create high quality 360° images.

SHARE YOUR 360° IMAGES

Foldio360 photography tool is an intuitive, easy-to-use system that allows you to upload and share your 360° images to your blog, online store and other websites.
