UltraLink SmartHome Products Work Seamlessly with Amazon Alexa and Google Assistant

Smart home products continue to gain popularity in the marketplace as they offer exceptional convenience, security and peace of mind for Canadian consumers. Canadian household penetration is currently at 13.9% in 2018 and is expected to hit 31.5% by 2022, according to research firm Statista. The UltraLink SmartHome family of products, including Wi-Fi smart plugs and light bulbs, are fully compatible with Amazon Alexa and Google Assistant for voice control, giving users the ability to control their home with simple voice commands. The UltraLink SmartHome App works with Android and iOS devices, providing users control of their home appliances and electronics directly from their smartphones, anywhere in the world.

Binding the UltraLink SmartHome products to Amazon Alexa or Google Assistant couldn't be easier with the implementation of the Smart Life Skill. Enter the UltraLink SmartHome account User Name and Password into the Smart Life page and follow the simple steps to unlock the most comprehensive voice controlled smart home experience. Control of home lighting and other electronic devices can be achieved in a matter of seconds with the straightforward setup.

There are a variety of home automation features that can make your life at home more convenient and easier to manage, especially for busy, large households or quite simply, it can help you when you don't feel like getting up from the couch or bed.
